“ *Benny will be missed but not the memories I have of him. He was essentially the leader of our pack. Not only in age but also in his overwhelming capacity to know the direction we should take. He loved the comradely we all shared. Benny was patrol leader of the Crows, one of two patrols we had in our Boy Scout Troop. He fastened the flag, made sure it flew at all out Scout functions: campouts, troop meetings, field exercises, etc. He had the best compass of all us troop members. And he knew how to use it.*

Then along came the cars. He and Billy Wallace had the best and fastest. I recall on one particular afternoon, down at the old airport just east of Guntersville, he and Clifford were racing down the runway. May have been his 1954 Chevy. At any rate, he was speed shifting into 2nd, no clutch, and hit that column gear shift so hard, it literally sheared off. Well being stuck in 2nd gear, he obviously didn't win the race. We drive home while Benny used a screw driver stuck into the open stubb where the shifter once lived.

So many memories, so many good times, so much brotherly love.

Until I see Benny again, the memories hold me secure. Farewell my friend. Until then. I remain Jimmy Justiice.

“ *The last time I was in Alabama I went over to my cousin Benny's house and spent some time with him, he showed me two of his restored vehicles and his man cave/ garage. I'm sure glad I was able to visit with him that one last time. Benny was a great guy and he will be missed. Condolences to all family members. Curtis Seward*
